Roadrace By-The-Sea Coming Sunday

The Cohasset Jaycees are sponsoring the third annual Roadrace By-The-Sea Sunday April 1 at 1 p.m.

The 10,000 meter or 6.2 mile race will be run along Elm Street, Margin Street, Atlantic Avenue, Jerusalem Road, Forest Ave, North Main Street, Highland Avenue to the finish line in front of the Town Hall.

The first three finishers in each class will earn gold, silver and bronze medals, respectively, which will be awarded by Selectmen. The Jaycees will also present the first 200 runners with T-shirts.

Three classes of runners, those under 18, 18-39, and 40 and over may register late and

check-in at the Town Hall between 10 a.m. and noon Sunday morning. Explorer Post Medical Aid will provide assistance as will the Boy Scouts.

So far several hundred runners between the ages of 8 and 61 have registered for the race. Five hundred to 1,000 runners are expected to participate.

The Cohasset Police have again offered their help in traffic control. A request has been made of residents to restrain their dogs from 1 p.m. to 2:30 the afternoon of the race; compliance will be appreciated.

Mark Duggan, a national class runner who won the 1977

race, said that the Roadrace By-The-Sea is the most beautiful course he has ever run. David McGilverey, the young man who ran across the country for the Jimmy Fund will be among the running this year, as well.

Town merchants are supporting the race with prizes and gift certificates. Autohaus is donating a vehicle as the pace car, as Spensley Chev-

rolet did last year. Cohasset News and Dwyers Cleaners are assisting with advertising.

Cohasset Jaycees Roadrace Committee Chairman Roy Fitzsimmons and committee members Gary Drinkwater, John Kinchla, Allen DeVito, Mike Equi, Jean DuVoisin, Sharpless Jones, Tom Fiore and Dick Audet want to thank everyone for their great support.

Kindergarten Orientation

An Orientation Session for parents of Joseph Osgood School Kindergarten enrollees for September will be held at the Cushing Room of Cushing Plaza April 5, at 10 a.m.

Among those present and commenting to the group will be Dr. John Maloney, superintendent of schools, Dr. Robert Sceery, school physician and Dr. Lawrence Lieberman, education consultant.

The Kindergarten teachers will discuss in detail the Kindergarten program and an opportunity for questions will be provided. Sign-up sheets

will be available for parents to indicate their choice of dates for their child's participation in the student screening program described below.

The Screening Program will be held April 23, 24, 25, 26 and 27. The procedure will include each child's participation in a two and one half hour session as part of a group of ten students becoming familiar with the life of a Kindergarten. At the same time the parent will participate in an interview dealing with the developmental history of the child.

Harbor

(continued from page 1)

Bennett reminded Cohasset Selectmen excise taxes are paid to the town where the boat is moored, according to new legislation that takes effect July 1.

In the past, Ritter noted, boats were assessed in the town where they were stored on land as of Jan. 1; consequently Cohasset lost out on the payment of taxes on boats which would occupy Cohasset waters during the summer, but wintered elsewhere.

Clark commented that because many of Scituate's commercial boats (for which no tax assessment is collected) are moored in Cohasset, the town will still fare poorly. He added that the law also states that 50 per cent of assessment must be spent for harbor maintenance.

Bennett said that he had two purposes in mind in dealing with Cohasset — they were to take responsibility for his town's waters and to be fair to Cohasset. He said that Scituate is now undergoing an expansion movement to increase moorings and therefore the number of boats and revenue coming to his town.

Charles Fink, chairman of the Cohasset Harbor Committee said Cohasset Harbor can contain 425 boats, and that the harbor would be hard-pressed to increase its moorings with the 32 acres of water left at low tide.
